

HOW HAS THE WORLD'S TOLERANCE FOR ECONOMIC FREEDOM CHANGED?

Global Economic Freedom Scores - 1970

Global Economic Freedom Scores - 2018

WHAT IS ECONOMIC FREEDOM?

Economic freedom is the fundamental right of every human being to control their own labor and property. It can be measured by five metrics: *freedom to trade internationally, amount of valid money in the system, the legal protections afforded to individuals, the regulatory influence of the government, and the size of the government.*
